ABOUT ADELPHOI

Adelphoi is a non-profit organization founded in 1971, providing an extensive network of community-based programs and services to over 1,200 children, youth and families on a daily basis.

Our continuum of care enables us to successfully meet the needs of a broad scope of clients ages birth to twenty (male and female) including those classified as delinquent, dependent, mental health, and non-adjudicated youth.

Adelphoi benefits and services are available to all children without regard to race, color, sex, disability, age, or national origin.

What is the Career Readiness Program?

Adelphoi's Career Readiness Program will prepare students for the world of work and help them to achieve their highest potential by offering career exploration in various trades and instruction in employability skills. Through the development of academic, vocational, and soft skills, Adelphoi students will prepare to re-enter their communities with increased self-esteem and a better knowledge of their own abilities and aptitudes.

Program Specifics

Small Engine Repair

This course is designed for students who are interested in small engines and mechanics. Areas of study include carburetion, ignition, basic engine principles, overhaul procedures, and troubleshooting engine problems. Course content will focus primarily on both Honda and Briggs & Stratton 2 cycle and 4 cycle engines.

The curriculum used for the small engines course is performance based and is predicated on the acquisition of skills learned by doing the many tasks associated with Small Engine technology.

Students will be OSHA Safety Certified.

Computer Technology

This course is designed for those students wishing to increase their skills using Microsoft Office products as well as performing problem-solving tasks. Students will be able to identify computer components and replace worn and malfunctioning parts. After completion of course students will be prepared to enter a community college to continue their training with computer technology.

Horticulture

Students will learn to plant, transplant, and care for a wide variety of greens. They will handle plants, flowers, vegetables, and herbs, and will be responsible for learning how to price items to sale and sell items from the greenhouse.

Program Specifics

Culinary Arts

This program introduces and provides instruction in the basic fundamentals needed in the Culinary Arts field. Practical experience is provided through actual food preparation in the programs' fully equipped commercial kitchen, while offering a supervised environment to practice leadership responsibilities.

Students have opportunity to earn a Servsafe Certificate. This food safety certification available through the National Restaurant Association, is a valuable asset for gainful employment and/or entry into post secondary education.

By incorporating classroom theory with laboratory work, students develop necessary skills directed toward a variety of career objectives in the culinary industry.

Automotive Detailing

Students will be able to complete an engine detail, a four stage exterior detail, a complete interior detail, remove stains in carpet, dye carpet, and do headlight restoration. Students will also have the opportunity to earn an OSHA Safety Certification as well as a detailing certification. Students will be able to secure employment as an auto detail technician or may use their entrepreneurial spirit to open his own detail shop.

Emergency Medical Response

Tailored to professional rescuers, this course provides comprehensive training that gives participants the knowledge and skills necessary to work as an emergency medical responder to help sustain life, reduce pain and minimize the consequences of injury or sudden illness until more advanced medical personnel take over. This course is certified by the American Red Cross and exceeds EMS educational standards. Students will have the opportunity to obtain certification.

Portfolios

Portfolios are designed to collect information and resources that will assist a student as he or she goes forward.

Completed competencies are documented by the instructor along with any certifications that the student may earn.

Student's employability skills are also assessed and included in their portfolios. They are able to use these portfolios as a springboard for further studies or careeer opportunities.
