December 6, 2023

Dear Parents/Guardians,

We are happy to announce that Ketterer Charter School has become certified and has implemented its own Student Assistance Program. The Student Assistance Program is designed to assist in identifying issues which pose a barrier to a student's success. This program is conducted on a voluntary basis and allows Ketterer to provide additional resources and supports beyond what we offer programmatically with the primary goal of helping students to overcome barriers so they may achieve, advance, and remain in school. In order to receive assistance, a student will need to have a SAP referral completed. This can be done by the teacher, a friend, the student themselves, or a parent/guardian. Please contact Tara Achtziger with additional questions.

Sincerely,

Ketterer SAP Team
